EXPERIENCE

Software Engineer
AUG 2021 - PRESENT | GitPlus Ghana, Accra, Ghana
I'm a software engineer and also an artificial intelligence tutor. I create websites, mobile application interface and web applications.

- Assessed system capabilities and requirements by running various tests and compiling data from results.
- Developed and directed software system testing and validation procedures.
- Wrote business and technical specification documents, clearly conveying complex analysis and solutions.
- Built applications using Java and Python.
- Completed programming projects that complied with existing coding standards and design styles.
- Developed custom websites to meet individual client needs.
- Wrote well-designed, testable code.
- Located and corrected data entry errors with thorough verification methods.
- Completed database updates to record required information.
